PAGE

Biosynthesis and Degradation

The effect of D-xylose, β-D-xylosides and β-D-galactosides on chondroitin sulphate biosynthesis in embryonic chicken cartilage.
By H. C. Robinson, M. J. Brett, P. J. Tralaggan, D. A. Lowther & M. Okayama 25

The formation of oligoglucans linked to lipid during synthesis of β-glucan by characterized membrane fractions isolated from peas.
By C. T. Brett & D. H. Northcote 107

A new method for the measurement of protein turnover.
By T. J. Humphrey & D. D. Davies 119

The synthesis and secretion of cartilage procollagen.
By R. Harwood, A. K. Bhalla, M. E. Grant & D. S. Jackson 129

Bioenergetics

8-Anilinonaphthalene-1-sulphonate interaction with whole and disrupted mitochondria: a re-evaluation of the use of double-reciprocal plots in the derivation of binding parameters for fluorescent probes binding to mitochondrial membranes (*Short Communication*).
By N. Gains & A. P. Dawson 157

Subcellular Structures

Isolation and protein composition of membranes of neurosecretory vesicles and plasma membranes from the neural lobe of the bovine pituitary gland.
By H. Vilhardt, R. V. Baker & D. B. Hope 57

The effect of uncouplers on catecholamine incorporation by vesicles of chromaffin granules (*Short Communication*).
By C. L. Bashford, R. P. Casey, G. K. Radda & G. A. Ritchie 153

Cellular Interactions and Control Processes

Decreased synthesis of acetylcholine accompanying impaired oxidation of pyruvic acid in rat brain minces.
By G. E. Gibson, R. Jope & J. P. Blass 17

The regulation of the biosynthesis of ubiquinone in the rat.
By S. Ranganathan & T. Ramasarma 35

PAGE

A mitochondrial monocarboxylate transporter in rat liver and heart and its possible function in cell control.
By J. Mowbray 41

Deoxyribonucleic acid-dependent ribonucleic acid polymerase activity in rat liver after protein restriction.
By G. M. Andersson & A. von der Decken 49

Alkaline ribonuclease and ribonuclease inhibitor in mammary gland during the lactation cycle and in the R3230AC mammary tumour.
By D. K. Liu, G. H. Williams & P. J. Fritz 67

The topography of lactose synthesis.
By N. J. Kuhn & A. White 77

The mitochondrial pyruvate carrier. Kinetics and specificity for substrates and inhibitors.
By A. P. Halestrap 85

The specificity and metabolic implications of the inhibition of pyruvate transport in isolated mitochondria and intact preparations by α-cyano-4-hydroxycinnamate and related compounds.
By A. P. Halestrap & R. M. Denton 97

The breakdown of lipid reserves in the endosperm of germinating castor beans.
By K. M. Marriott & D. H. Northcote 139

Stimulation of glycosaminoglycan biosynthesis by amyloid fibrils (*Short Communication*).
By M. J. Palmoski & K. D. Brandt 145

Failure of adrenaline to induce hyperglycaemia after fructose injection in young mice (*Short Communication*).
By J. H. Thurston, E. M. Jones & R. E. Hauhart 149

Metabolism in Whole Organisms

The metabolism of benzoate by *Moraxella* species through anaerobic nitrate respiration. Evidence for a reductive pathway.
By R. J. Williams & W. C. Evans 1

The aerobic metabolism of cyclohexanecarboxylic acid by *Acinetobacter anitratum*.
By E. M. Rho & W. C. Evans 11

Contents of Volume 148, No. 2

PAGE

Biosynthesis and Degradation

Rates of accumulation of glycosidase activities during growth and differentiation of *Dictyostelium discoideum*.
By D. Every & J. M. Ashworth 161

Rates of degradation and synthesis of glycosidases *de novo* during growth and differentiation of *Dictyostelium discoideum*.
By D. Every & J. M. Ashworth 169

Structure and metabolism of glycoproteins and glycosaminoglycans secreted by organ cultures of rabbit trachea.
By J. T. Gallagher & P. W. Kent 187

The formation of mono-*N*-acetylhexosamine derivatives of dolichol diphosphate by pig liver microsomal fractions.
By G. Palamarczyk & F. W. Hemming 245

The mannophosphoinositides of *Corynebacterium aquaticum*.
By J. A. Hackett & P. J. Brennan 253

Regulation of enzyme turnover during tissue differentiation. Studies on the effects of hormones on the turnover of fatty acid synthetase in rabbit mammary gland in organ culture.
By B. K. Speake, R. Dils & R. J. Mayer 309

Bioenergetics

The effects of halothane on hepatic microsomal electron transfer.
By M. C. Berman, K. M. Ivanetich & J. E. Kench 179

Synthesis and sidedness of membrane-bound respiratory nitrate reductase (EC 1.7.99.4) in *Escherichia coli* lacking cytochromes.
By M. B. Kemp, B. A. Haddock & P. B. Garland 329

Synthesis of alternative membrane-bound carriers during aerobic growth of *Escherichia coli* in the presence of potassium cyanide (*Short Communication*).
By J. R. Ashcroft & B. A. Haddock 349

Subcellular Structures

Inhibition of glucose 6-phosphatase by pure and impure C-type phospholipases. Reactivation by phospholipid dispersions and protection by serum albumin.
By B. R. Cater, P. Trivedi & T. Hallinan 279

PAGE

The localization of glycollate-pathway enzymes in *Euglena*.
By N. Collins & M. J. Merrett 321

Cellular Interactions and Control Processes

The stimulation by transmitter substances and putative transmitter substances of the net activity of phospholipase A2 of synaptic membranes of cortex of guinea-pig brain.
By R. J. Gullis & C. E. Rowe 197

The isolation and properties of granulocytic colony-stimulating activities from medium conditioned by human peripheral leucocytes.
By G. B. Price, J. S. Senn, E. A. McCulloch & J. E. Till 209

Activation of pyruvate dehydrogenase in adipose tissue by insulin. Evidence for an effect of insulin on pyruvate dehydrogenase phosphatase.
By C. Mukherjee & R. L. Jungas 229

Insulin release and the microtubular system of the islets of Langerhans. Identification and characterization of tubulin-like protein.
By W. Montague, S. L. Howell & I. C. Green 237

Effect of a single oral dose of methanol, ethanol and propan-2-ol on the hepatic microsomal metabolism of foreign compounds in the rat.
By G. Powis 269

Thymidine transport in phytohaemagglutinin-stimulated pig lymphocytes.
By S. D. Barlow & M. G. Ord 295

A model system for investigating the biliary excretion of an anion in the rat.
By G. M. Powell, J. G. Jones, A. H. Olavesen & C. G. Curtis 303

Accelerated uptake of 5-hydroxytryptamine by human blood platelets enriched in a sialic acid (*Short Communication*).
By L. Szabados, L. Mester, F. Michal & G. V. R. Born 335

Specificity of the effect of dietary cholesterol on rat liver microsomal 3-hydroxy-3-methylglutaryl-coenzyme A reductase activity (*Short Communication*).
By K. W. Gregory & R. Booth 337

GENERAL BOOKBINDING CO.
75 IAA 2 013 1 C 5552
QUALITY CONTROL MARK

PAGE

Iron removal from transferrin by a cell-free amphibian system (*Short Communication*).
By G. T. James & E. Frieden 341

Development

Inactivation of glucose 6-phosphate dehydrogenase during germination and outgrowth of *Bacillus cereus* T endospores.
By M. Orlowski & M. Goldman 259

PAGE

Glucose turnover rate in newborn rats (*Short Communication*).
By J. R. Girard & I. Guillet 345

Metabolism in Whole Organisms

The metabolism of labelled hexadecyl sulphate salts in the rat, dog and human.
By I. Merits 219

Contents of Volume 148, No. 3

PAGE

Biosynthesis and Degradation

Relationship between elongation factor 1- and elongation factor 2-dependent guanosine triphosphatase activities of ribosomes. Inhibition of both activities by ricin.
By S. Sperti, L. Montanaro, A. Mattioli & G. Testoni 447

Tricarboxylic acid-cycle and related enzymes in restricted facultative methylotrophs.
By J. Colby & L. J. Zatman 505

Enzymological aspects of the pathways for trimethylamine oxidation and C_1 assimilation in obligate methylotrophs and restricted facultative methylotrophs.
By J. Colby & L. J. Zatman 513

Desaturation of stearic acid by liver and adipose tissue from obese–hyperglycaemic mice (*ob*/*ob*).
By M. Enser 551

The effects of adenine nucleotides and guanine nucleotides on urate synthesis *de novo* by isolated chick liver and kidney cells (*Short Communication*).
By P. Badenoch-Jones & P. J. Buttery 599

Bioenergetics

Effects of increased mechanical work by isolated perfused rat heart during production or uptake of ketone bodies. Assessment of mitochondrial oxidized to reduced free nicotinamide–adenine dinucleotide ratios and oxaloacetate concentrations.
By L. H. Opie & P. Owen 403

The effect of butacaine on adenine nucleotide binding and translocation in rat liver mitochondria.
By D. R. H. Fayle, G. J. Barritt & F. L. Bygrave 527

PAGE

A simple and rapid method for the preparation of adenosine triphosphatase from submitochondrial particles.
By R. B. Beechey, S. A. Hubbard, P. E. Linnett, A. D. Mitchell & E. A. Munn 533

Essentiality of ubiquinone for choline oxidation in rat liver mitochondria (*Short Communication*).
By M. C. Barrett & A. P. Dawson 595

Subcellular Structures

Sialic acid in crude myelin fractions from rat brain.
By O. K. Langley 375

Plasma-membrane-associated immunoglobulins and other polypeptides of pig mesenteric node lymphocytes.
By S. I. Chavin, S. M. Johnson & A. Holliman 417

Evidence that circularly dichroic chlorophyll forms *a*-682 and *a*-710 are oriented at right angles to the thylakoid membranes of whole chloroplasts, and that the circular dichroism is light-dependent.
By R. P. F. Gregory 487

Cellular Interactions and Control Processes

The effects of inhibition of gluconeogenesis on ketogenesis in starved and diabetic rats.
By P. J. Blackshear, P. A. H. Holloway & K. G. M. M. Alberti 353

Regulation of branched-chain amino acid oxidation in isolated muscles, nerves and aortas of rats.
By M. G. Buse, S. Jursinic & S. S. Reid 363

The nature and control of the tricarboxylate cycle in beetle flight muscle.
By R. G. Hansford & R. N. Johnson 389

PAGE

The effects of acute and chronic nicotine hydrogen (+)-tartrate administration and subsequent withdrawal on rat liver tryptophan pyrrolase activity and their comparison with those of morphine, phenobarbitone and ethanol.
By A. A.-B. Badawy & M. Evans 425

Colchicine binding to bovine anterior pituitary slices and inhibition of growth-hormone release.
By P. Sheterline, J. G. Schofield & F. Mira 453

Drugs affecting the synthesis of glycerides and phospholipids in rat liver. The effects of clofibrate, halofenate, fenfluramine, amphetamine, cinchocaine, chlorpromazine, demethylimipramine, mepyramine and some of their derivatives.
By D. N. Brindley & M. Bowley 461

Enhanced synthesis *de novo* of phosphatidylinositol in lymphocytes treated with cationic amphiphilic drugs.
By D. Allan & R. H. Michell 471

The relationship of calcium to receptor-controlled stimulation of phosphatidylinositol turnover. Effects of acetylcholine, adrenaline, calcium ions, cinchocaine and a bivalent cation ionophore on rat parotid-gland fragments.
By L. M. Jones & R. H. Michell 479

Effect of modification of thyroid function on cholesterol 7α-hydroxylation in rat liver.
By N. Takeuchi, M. Ito, K. Uchida & Y. Yamamura 499

Chemical carcinogenesis in the nervous system. Preferential accumulation of O^6-methylguanine in rat brain deoxyribonucleic acid during repetitive administration of *N*-methyl-*N*-nitrosourea.
By G. P. Margison & P. Kleihues 521

PAGE

An investigation of the involvement of adenosine 3′:5′-cyclic monophosphate in steroidogenesis by using isolated adrenal cell column perfusion.
By A. M. Hudson & C. McMartin 539

Proportional activities of glycerol kinase and glycerol 3-phosphate dehydrogenase in rat hepatomas.
By J. W. Harding, Jr., E. A. Pyeritz, H. P. Morris & H. B. White III 545

The stimulation by synaptic transmitters of the incorporation of oleate into the phospholipid of synaptic membranes.
By R. J. Gullis & C. E. Rowe 557

The stimulation of the phospholipase A2–acylation system of synaptic membranes of brain by cyclic nucleotides.
By R. J. Gullis & C. E. Rowe 567

Regulation of carbohydrate metabolism in lymphoid tissue. Quantitative aspects of [U-^{14}C]glucose oxidation by rat spleen slices.
By D. Suter & M. J. Weidemann 583

Development

Early ribonucleic acid synthesis during the germination of rye (*Secale cereale*) embryos and the relationship to early protein synthesis.
By S. Sen, P. I. Payne & D. J. Osborne 381

Plastid development in primary leaves of *Phaseolus vulgaris*. Development of plastid adenosine triphosphatase activity during greening.
By P. Gregory & J. W. Bradbeer 433

Metabolism in Whole Organisms

Turnover of carnitine by rat tissues.
By D. E. Brooks & J. E. A. McIntosh 439
